6. [ ] THIRD AGENCY [ ] DDO, called to discuss a matter which has been the topic of discussion between State Department and Agency representatives concerning anticipated contact by State with Senators Hubert Humphrey (D., Minn.) and Daniel K. Inouye (D., Hawaii) and Representative Otto Passman (D., La.) concerning a \$20 million program for a loan [ ] State is concerned that contacts with these members may raise questions [ ]

[ ] under the Foreign Assistance Act and wondered how this could best be handled. The suggestion had been made that if these members raise a question in this subject area they be referred to the Agency. I suggested as an alternative that State Department contact the Chairmen of the committees involved (House and Senate Appropriations and House International Relations and Senate Foreign Relations) in advance and obtain their approval of State's merely referring these members to those Committee Chairmen if the question arises. I subsequently cleared this approach with the Director and so notified [ ]

7. [ ] LIAISON Contacted Russ Rourke, in the office of John O. Marsh, Counsellor to the President, to alert him to the status of our dealings with the NSC staff on the Director's testimony on SALT for Senator Henry Jackson's (D., Wash.) Arms Control Subcommittee of Senate Armed Services. Rourke asked that we let him know when the transcript goes to Armed Services. Later in the day, I told him that the transcripts had gone and we had gotten some feedback from Richard Perle, of Senator Jackson's office, and we would be dealing with him regarding the deletions. I also mentioned that we were in close touch with Les Janka, of the NSC staff, on this.

8. [ ] LIAISON Jim Gehrig, on the staff of the Senate Aeronautical and Space Sciences Committee, called to say that a new Staff Director, Gilbert Keyes, has recently been appointed and Gehrig would like to arrange a "thorough briefing" for him. He said he hated to tie up Carl Duckett and whoever we thought were competent persons to brief him were perfectly acceptable to them. He also indicated that he would like to talk with me in the next day or two regarding some thoughts they had about sending a letter to NASA which has some repercussions as far as the Agency is concerned. Gehrig wanted to talk to us before sending such a letter. I told him I would drop by to see him probably on Monday, meanwhile we will get in touch with Mr. Duckett's people to set up a briefing on Soviet space missiles and related programs for Keyes.

STATINTL

5. (Unclassified - LLM) LIAISON Met with Pat Holt, Staff Director, Senate Foreign Relations Committee, and told him that [redacted] OCI, had been thinking of his possible interest in a think piece on the "Politicization of International Technical Organizations" and that this may be of current interest because of the article in today's Washington Post assessing the special U.N. session just concluded. Holt said it was particularly timely as he was involved in an assessment of the International Telecommunications Union.

6. (Unclassified - LLM) LIAISON Left for Marian Czarnecki, Chief of Staff, House International Relations Committee, a copy of the research study on "Politicization of International Technical Organizations."

7. (Unclassified - LLM) LIAISON Ran into Bill Jones, General Counsel, House Government Operations Committee, who confirmed Chairman Jack Brooks' (D., Texas) positive reaction to Mr. Colby's 15 August 1975 letter to Chairwoman Bella Abzug (D., N.Y.) on making material available on the [redacted] case. Jones said that there had been a serious, unemotional session of the Committee or the Subcommittee on Government Information and Individual Rights on this subject and I conceded that to establish our credibility we might show to the Chairman and the Ranking Minority Member the material deleted from the classified volume although we would prefer to do this through the regular oversight committees (which Jones said Chairman Brooks would not agree to); that the recent unilateral decision of the House Select Committee was not making things easier and I thought it was best that we avoid any unnecessary confrontations until the investigations are completed and Congress itself decides on what congressional bodies they will entrust with oversight of CIA since it is just plain ridiculous for Congress to treat, for example, my income tax return with greater respect for confidentiality than it does the sensitive sources and methods used in collecting information on our potential foreign adversaries.
